Jessica was diagnosed with Acute Myeloid Leukemia (AML) in July of 2011. AML is cancer that starts inside bone marrow, the soft tissue inside bones that helps form blood cells. The cancer grows from cells that would normally turn into white blood cells. Persons with this type of cancer have abnormal cells inside their bone marrow. The cells grow very fast, and replace healthy blood cells. The bone marrow, which helps the body fight infections, eventually stops working correctly. Persons with AML become more prone to infections and have an increased risk for bleeding as the numbers of healthy blood cells decrease. Jessica is preparing to have a bone marrow transplant on November 24th, 2011.

Jessica is an active, healthy, fit 32 year old and is trained in Mixed Martial Arts! She is a wonderful mother to her three year old daughter Ashley. And Jessica is recently engaged to her Fiancee Matt, they're planning a November 2012 wedding! Jessica has SO MANY exciting things to look forward to! Her strength and most upbeat, positive attitude is both amazing and inspiring! If you get the chance to meet Jess..you will quickly gain a friend for life! Please come out and support Jessica and her family in this difficult time! All sales and donations will go towards Jessica's medical expenses.
