**Student Elections Held at St. Mary's School ~ Vineland**

**For Immediate Release: November 30, 2011.** St. Mary's School ~ Vineland, NJ 08360

Each year in November St. Mary's School in Vineland holds an election for Student Council officers and classroom representatives. The school election coincides with local and national elections and provides teachers with an educational component to the election process. Students in grades four through eight are invited to run for classroom representatives. Eighth grade students can choose to run for president and vice president positions and, seventh grade can run for secretary and treasurer.

This year's election brought a new level of professionalism. The gym served as a mock press room and voting booths were set up for children to cast their ballots. Prior to the students casting their votes, all candidates had an opportunity to give their campaign speech.

The students at St. Mary's School represent our future leaders in society and St. Mary's School takes pride in teaching them the importance of voting and what it means to be a good citizen.
